OUTSTANDING QUALITY WITH UNIQUE ORIGINS

Our production facilities are located just a few kilometres away from some important archaeological sites. An ancient form of craftsmanship that originated in the unique types of soil found in the Peloponnese. Impressive artefacts stand testament to the truly special nature of this region. We made a good thing even better. By combining five different types of soil, we managed to make terraneo frost resistant up to -50°C. And without having to compromise on the characteristic permeability of terracotta.

VERBETERDE KWALITEIT EN UNIEKE HERKOMST

Slechts enkele kilometers verwijderd van onze werkplaats bevinden zich de afgravingen met waardevolle grondstoffen. De eeuwenoude ambachtelijke terracotta productie vindt dan ook zijn oorsprong in deze unieke aarde van de Peloponnesos. De indrukwekkende terracotta vondsten in dit gebied gedaan vormen het bewijs hiervan. D.m.v. het combineren van 5 grondstoffen is het ons gelukt om het goede nog beter te maken: de vorstbestendigheid van Terraneo reikend tot -50° C met behoud van de voor terracotta zo karakteristieke porositeit.

QUALITÉ EXTRAORDINAIRE ET ORIGINE UNIQUE

Des sites de fouilles importants sont situés à quelques kilomètres seulement de notre atelier de production. Un artisanat d'art millénaire trouve son origine dans le caractère unique des terres du Péloponnèse. Des artefacts impressionnants témoignent de la particularité de cette région. Faire encore mieux. En combinant 5 types de terre, nous sommes parvenus à rendre terraneo résistante au gel jusqu'à -50° C, sans compromettre pour autant la perméabilité de la terre cuite.

QUALITÀ STRAORDINARIA E ORIGINE ESCLUSIVA

A pochi chilometri dal nostro stabilimento produttivo si trovano siti archeologici di grande interesse. Creazioni di artigianato artistico vecchie di millenni che traggono origine dalla terra unica del Peloponneso. Manufatti straordinari che testimoniano l'eccezionalità di questa regione. Tuttavia, è sempre possibile migliorare ciò che è già bello. Attraverso la combinazione di 5 terre diverse, siamo riusciti a rendere terraneo resistente al gelo e a temperature fino a -50° C senza pregiudicare la caratteristica traspirabilità della terracotta.

CRAFTSMANSHIP WITH A HERITAGE. Each piece is unique – just like the people who make it. Even today, our planters are still meticulously handcrafted with a great deal of passion and expertise. Masterful craftsmanship – Made in Greece.

TRADITIONEEL HANDWERK Elk product is uniek. Ook vandaag de dag worden onze terracotta potten en kruiken met de hand gemaakt / afgewerkt. Behalve met vaardigheid gebeurt dit handwerk ook met veel overgave. Vakmanschap is meesterschap – Made in Greece.

ARTISANAT D'ART ET TRADITION. Chaque pièce est unique, tout comme les hommes qui la fabriquent. Encore aujourd'hui, la fabrication de nos pots est le résultat de longues heures de travail manuel, de passion et de savoir-faire. Une qualité de fabrication artisanale - Made in Greece.

ARTIGIANATO ARTISTICO CON UNA LUNGA TRADIZIONE. Ogni pezzo è unico, come le persone che lo producono. Ancora oggi i nostri vasi sono realizzati a mano, con tutta la passione e il know how che ci contraddistinguono. Lavorazione artigianale - prodotto in Grecia.
